Vusani Nwedo

Software Engineer | Aspiring Web Developer

About Me

Hello! I'm Vusani Nwedo, a passionate aspiring web developer. I have a strong interest in creating dynamic and responsive web applications. My goal is to become a proficient full-stack developer and contribute to innovative projects that make a difference.

Skills

- HTML

- CSS

- JavaScript (Basic)

- Java

- Python

Interests

I am particularly interested in front-end development, user experience design, and data visualization. I enjoy working on projects that challenge me to think creatively and solve complex problems.

Experience

I have worked on several projects that involved building websites and web applications. My experience includes developing responsive interfaces and integrating APIs.
